

Laboratório de Arquitectura I

1º semestre

Gustavo Arguello 20211039

Faculdade de Arquitectura | ULisboa . 2021 - 2022 . Mestrado Integrado em Arquitectura . Turma F

**PERCORRER
PERMANECER
CONTEMPLAR**

Local de Estudo

[S.^a da Graça]

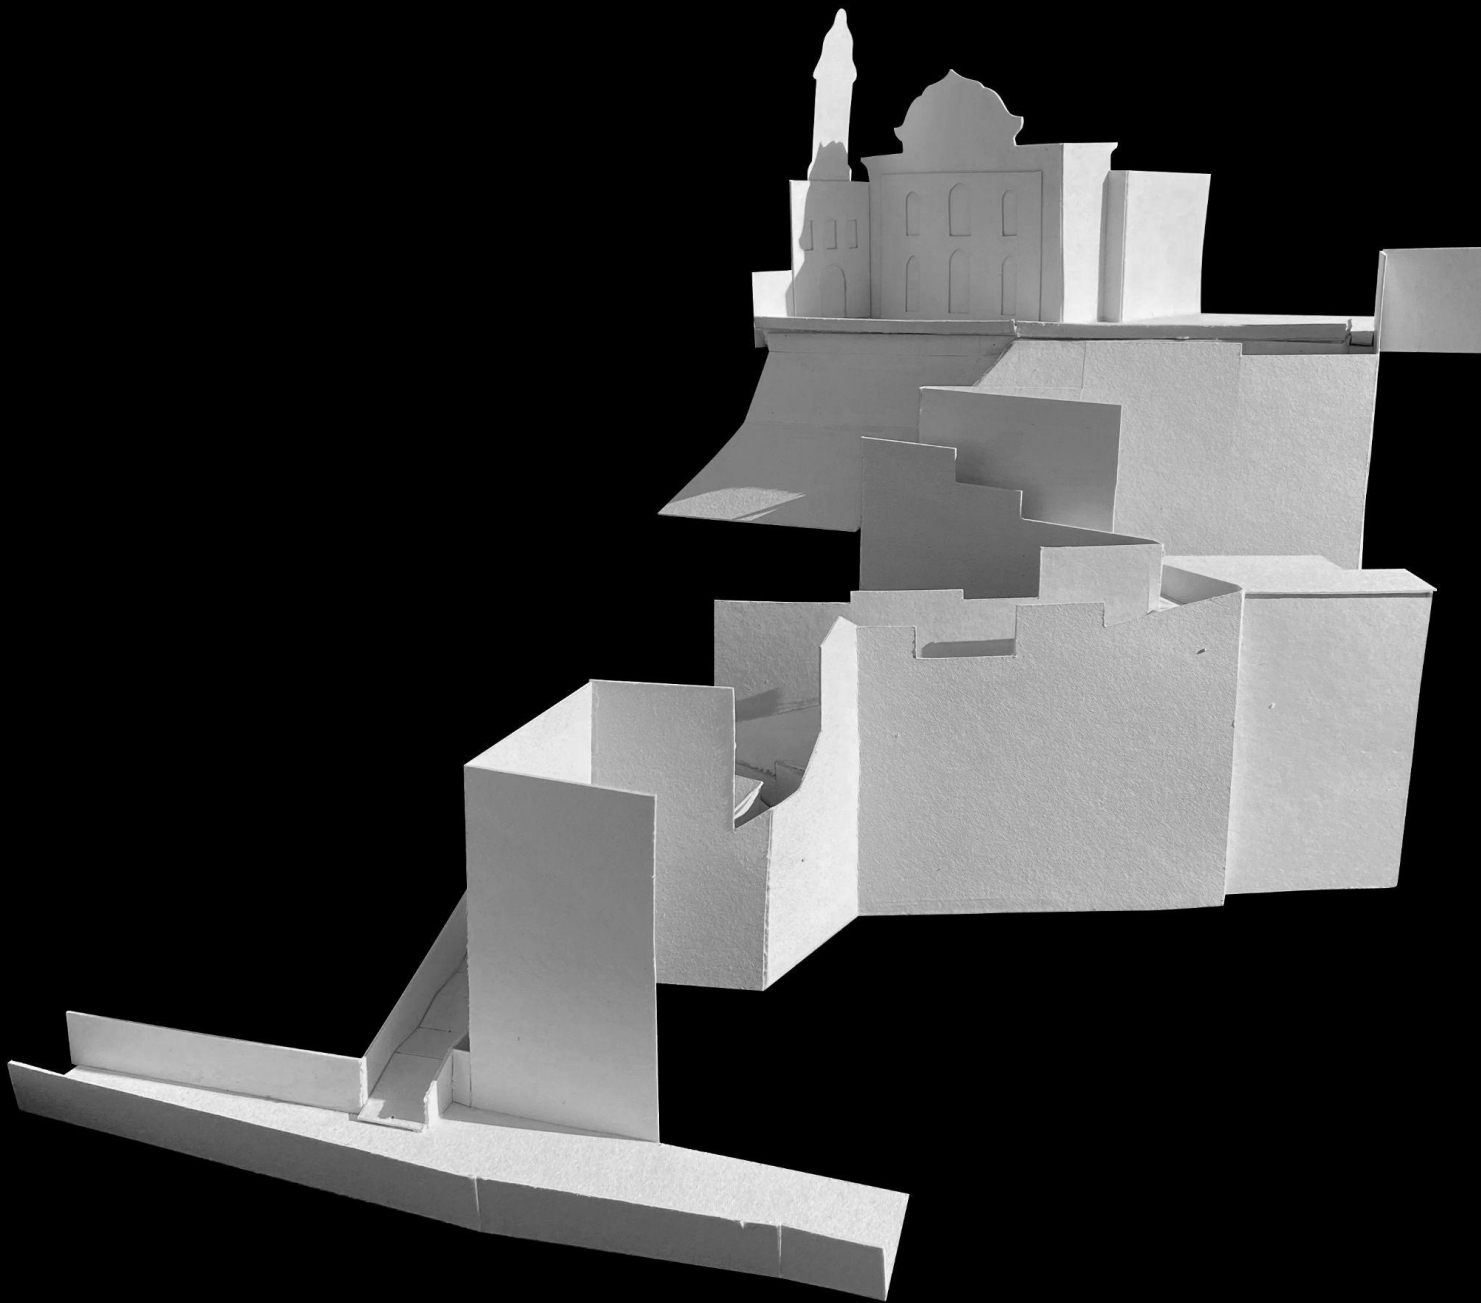

Proposta

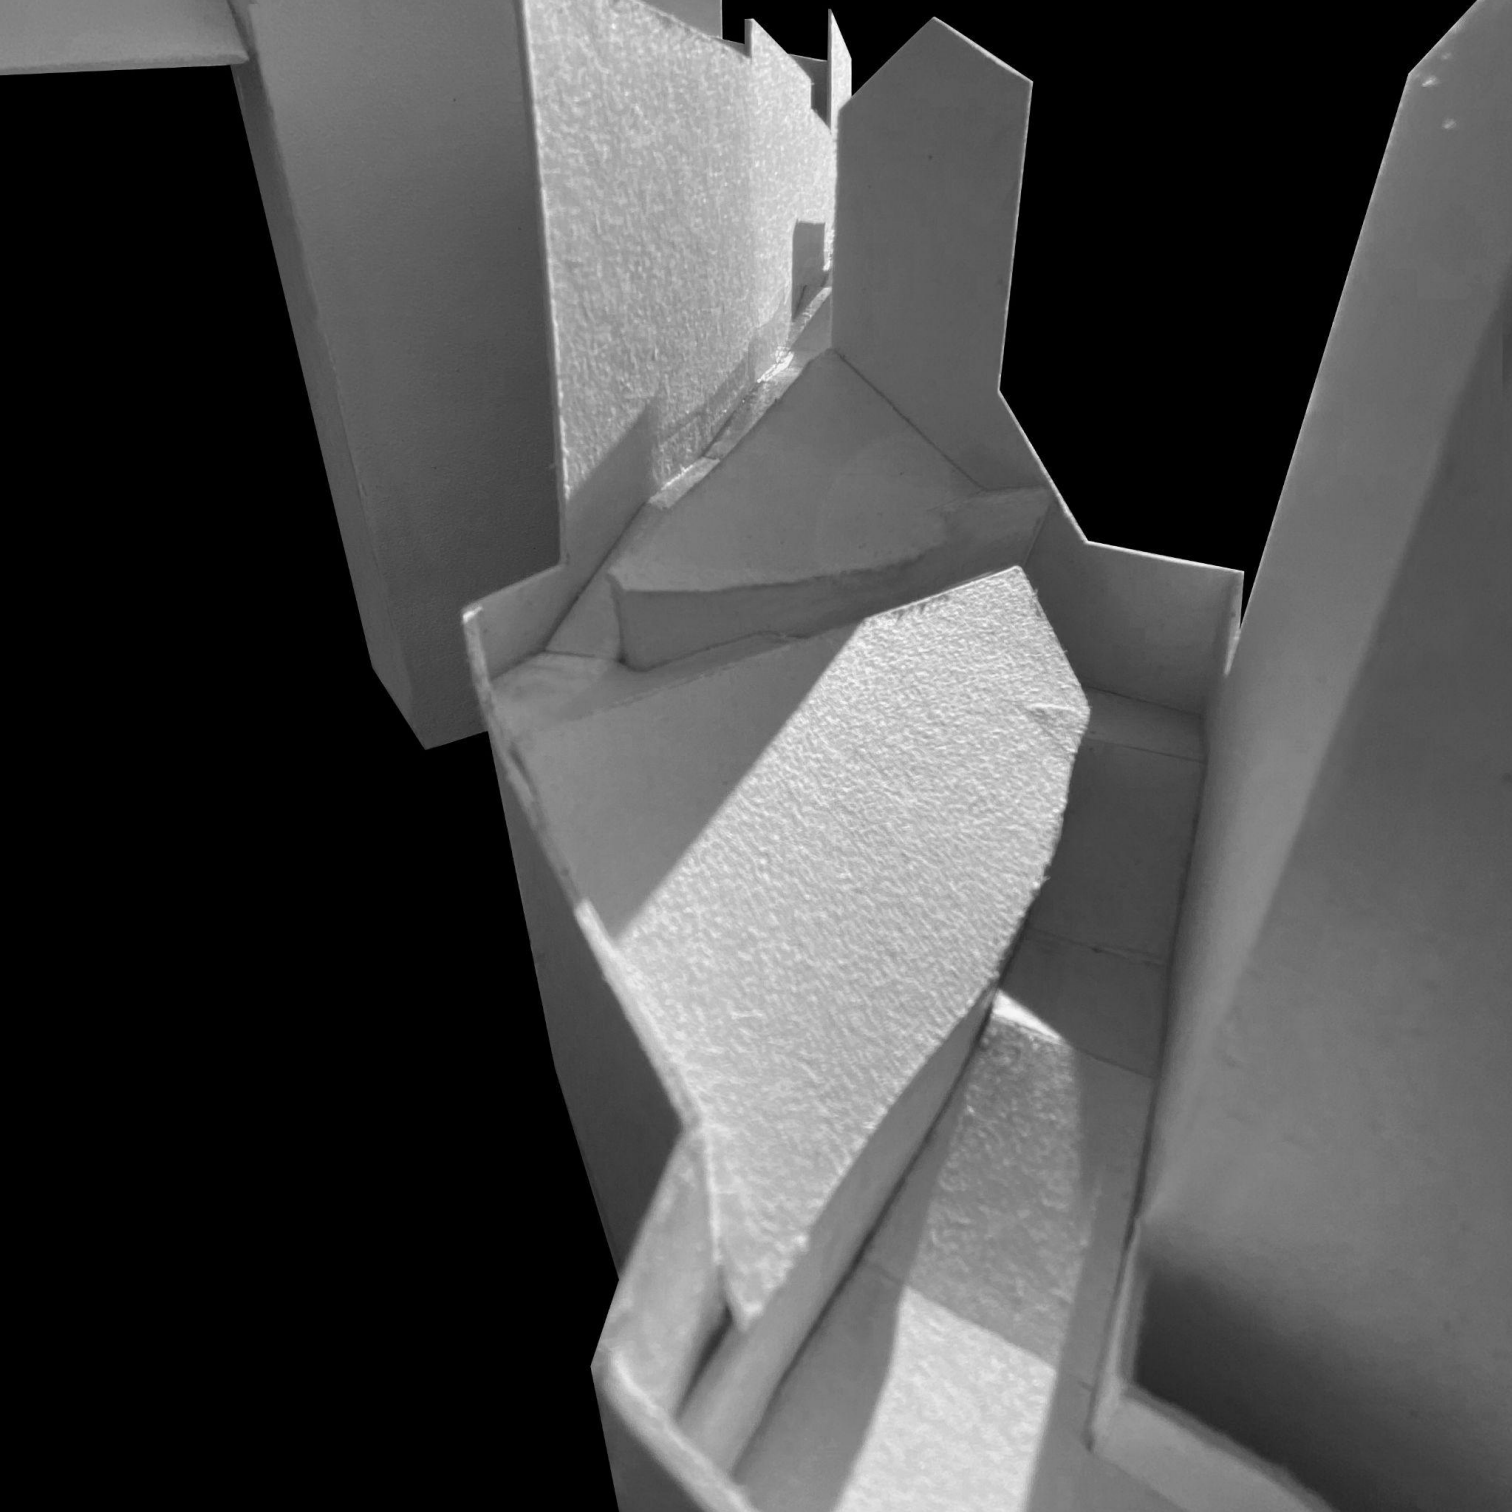

Escolhi esse dois quadros pois são retratos da luz natural do sol e a sua relação com tudo o que o circunda. Com um ponto de vista de um observador aqui na terra que num dado momento pode perceber as diferentes frequências de cores do sol através do arco-íris ou a sua posição em relação direta com a Lua, visualizando assim a passagem do tempo e as diferentes épocas do mês e do ano.
