

9th lesson - Photoshop

22th November, 2022

- Shadow - 45 degrees, in technical drawings - from left to right
- CTRL T = transformation (size, orientation, mirror ...)
- Select SECTION COPY - select AREA OF INTERVENTION (a selection we created) - apply mask
 - Black hides, white shows, greys create a filter
- DON'T CUT ANYTHING! - it will ruin our selections
- When we select a texture - think of its purpose first
- CLONE STAMP - to correct mistakes (for ex. In the texture)
 - We can change the size and the hardness of the stamp
 - Lower hardness makes the transitions smoother
 - CTRL S
- DUPLICATE - AALT + drag
- MAGIC LASO TOOL - to create a selection around something irregular (for ex. people)
